Experience

Frontend Developer Internship

Nov 2022 - Current

Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

Operations Coordinator

Aug 2021 – Jan 2023

Selling Simplified – Full time

- Coordinated campaigns with strict deadlines, ensuring that deliverables were met on time and within budget, which honed my project management skills
- Collaborated with various departments to collect, organize, and process data, which helped me develop effective communication skills and experience working with cross-functional teams
- Cleaned and organized data using Excel, which sharpened my data analysis and manipulation skills

Customer Service Supervisor

Oct 2016 – Aug 2021

Woolworths – Part time

- Supervised and managed a team of customer service representatives, which honed my leadership skills and ability to delegate tasks effectively
- Resolved customer complaints and issues, which developed my problem-solving skills and ability to think on my feet

Projects

Beyhan's Bakery | [Website](#) | [GitHub](#)

- Created a dynamic and interactive online store for a personal project using React, showcasing my proficiency with this popular JavaScript library
- Implemented a user-friendly interface that allows users to easily browse through items, add them to a dynamic cart, and manage the store's state using React components

Library React Store [Website](#) | [GitHub](#)

- Developed an efficient and user-friendly web application using React, showcasing my technical skills and ability to create a seamless user experience
- Created a dynamic cart feature that enables users to add or remove books without having to refresh the page, further showcasing my proficiency with React and creating an interactive web application.
- Implemented a loading state that informs users of the application's status while waiting for books to load, demonstrating my attention to detail and focus on user experience.

Education

Bachelor of Science in Information Technology
University of Technology Sydney (UTS)

Aug 2019 – 2023

- Majoring in Business Information Systems Management
- Majoring in Enterprise Systems Development
